

The Pi Academy is offering a one-day Raspberry Pi Youth Coding Camp at Grand Valley State University on June 12, 13, or 14.

<https://www.eventbrite.com/o/the-pi-academy-103192156831>

Students will rotate through small-group STEM stations where they will:

- Learn computer logic through Turing Tumble
- Code in Python using Turtle
- Work with Sense HAT sensors and LED displays
- Build circuits using breadboards
- Program drones through obstacle challenges

Additional activities may include robotics, Minecraft coding, and Unity game development.

Each student will receive their own Raspberry Pi computer to take home. Cost is \$50 per student. Scholarships are available for families who need assistance.

Class size is limited to 14 students per day.
